

THE CHOICE OF LIVESTOCK PROFESSIONALS

DURABLE, EFFICIENT AND MOBILE

The ProWay Eco Mobile Cattle Ramp is an adjustable trailer to truck ramp and an effective solution for loading between trailers, utes and the first deck of stock crates.

The fully sheeted sides also features a non-slip walkway ensuring operator safety and animal welfare. The Mobile Cattle Ramp can be towed between multiple sites and the tow frame can be simply unpinned and removed.

- Compatible with ProWay Mobile Cattle Yards
- Sheeted sides and non-slip walkway
- Adjustable to suit utes, trailers and the first deck of stock crates
- Easily transportable between multiples sites
- Tow frame is simply unpinned and removed

EFFICIENCY, SAFETY AND PRODUCTIVITY ADVANTAGES

RENOWNED STRENGTH, RELIABILITY AND SAFETY

The ProWay 12.5 Degree Cattle Ramp is the ultimate solution for safely and efficiently loading livestock. ProWay's Permanent Loading Ramp range are renowned for their safety, durability and reliability, continually withstanding tough conditions year after year. ProWay's 12.5 Degree Cattle Ramp is highly regarded by producers, commercial operators and transport contractors alike.

Featuring a fully galvanised construction with non slip walkways and handrails, the 12.5 Cattle Ramp is fully sheeted to ensure cattle flow safely and efficiently. This heavy duty loading option has been designed to handle high quantities of cattle breeds and has proven to time and again to be the perfect loading/unloading option for family owned and commercial producers.

The 12.5 Degree Cattle Ramp has been continually developed by our Engineering and Innovation Teams on the back of direct industry feedback and consultation with clients, commercial facilities and livestock transport associations.

- Rises over 5.0M (plus 1.6m level extension)
- Galvanised construction with non-slip walkway and handrail for operator safety
- Sheeted cattle rail sides are standard to promote safety and stock flow with an internal width of 800mm
- Access door and sliding gate at truck end
- Swivel buffer board eliminates gap between the ramp and truck
- Heavy duty, proudly Australian made construction
- Designed to improve efficiency and safety when unloading/loading cattle and calves

Optional upgrades available:

- Wide landing
- Dual walkways
- Stairs to ground

EFFICIENCY, SAFETY AND PRODUCTIVITY ADVANTAGES

RENOWNED STRENGTH, RELIABILITY AND SAFETY

The ProWay 12.5 Degree Queensland Cattle Ramp is the ultimate solution for safely and efficiently loading livestock. ProWay's Permanent Loading Ramp range are renowned for their safety, durability and reliability, continually withstanding tough conditions year after year. ProWay's 12.5 Degree Queensland Cattle Ramp is highly regarded by producers, commercial operators and transport contractors alike.

Featuring a fully galvanised construction with non slip walkways and handrails, the 12.5 Queensland Cattle Ramp is fully sheeted to ensure cattle flow safely and efficiently. This heavy duty loading option has been designed to handle high quantities of larger tropical cattle breeds and has proven to time and again to be the perfect loading/unloading option for family owned and commercial producers.

The 12.5 Degree Queensland Cattle Ramp has been continually developed by our Engineering and Innovation Teams on the back of direct industry feedback and consultation with clients, commercial facilities and livestock transport associations.

- Rises over 5.0M (plus 1.6m level extension)
- Wider landing and steps to ground on drivers side
- Sheeted cattle rail sides are standard to promote safety and stock flow with an internal width of 800mm
- Galvanised construction with non-slip walkway and handrails for operator safety on both sides of ramp
- Access door and sliding gate at truck end
- Swivel buffer board eliminates gap between the ramp and truck
- Heavy duty, proudly Australian made construction
- Designed to handle harsh Queensland climate and larger tropical breeds

**HEAVY DUTY
CONSTRUCTION**

**NON SLIP

EFFICIENCY, SAFETY AND PRODUCTIVITY ADVANTAGES

HEAVY DUTY, SAFE AND EFFICIENT

The ProWay 19 Degree Permanent Loading Ramp is a tried and tested piece of equipment that has been continually developed and improved on the back of industry feedback. ProWay is renowned for all Loading Ramps adhering to the highest Australian industry standards.

- Rises to 3.3m with optional 1.6m level extension
- 3/4 Sheeted sides promote stockflow and operator safety
- Stepped concrete flooring ensures longevity and safe stock loading
- Swivel buffer board minimises damage to the ramp frame over time when reversing
- Sliding gate included at truck end
- Non slip walkways and manway gates ensure a completely separate access area for transporters
- Heavy duty, tried and tested product that has been continually improved to adhere to Australian industry standards

**NON SLIP

THE CHOICE OF LIVESTOCK PROFESSIONALS

ProWay have designed a range of cattle loading ramps that are regarded by livestock carriers as the best available for safety and stockflow.

ProWay have worked with The Livestock Transport Association of Victoria (LTAV) in developing an approved loading ramp design guide for varied applications. This guide can be found on the LTAV website: <http://lrtav.com.au/ramps/>

THE PROWAY ADVANTAGE:

The ProWay 8m permanent adjustable cattle loading ramp has been designed with, safety, longevity and efficiency in mind.

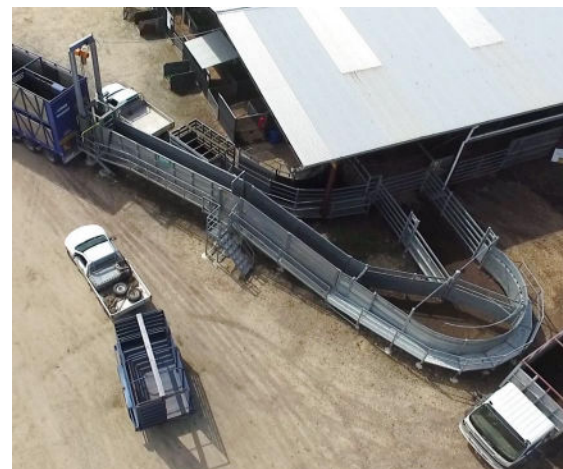

- Designed in conjunction with major trucking companies to maximise stock flow and operator safety - utilising OH & S guidelines.
- Engineer certified
- Fully sheeted 1.7m metre sides with viewing slot.
- Pressed chequer plate hot dipped flooring.
- Non slip expanded mesh walkway (600mm wide) with hand rail, mid rail and toe board-meets Australian Standards.

THE CHOICE OF LIVESTOCK PROFESSIONALS

ProWay offer an integrated design, planning, budgeting, manufacture and site installation service for livestock handling facilities throughout Australia and the world.

We have been employed by private and public organisations to design, manufacture and install livestock handling facilities on farms and feedlots, through to large scale abattoirs and saleyards.

Making the Livestock industry more

EFFICIENT, SAFE & PROFITABLE

- 1.8m wide dump, for good cattle flow.
- Pulls forward as raises, no need to move truck.
- Length ideal for coming off a 900mm bank.
- Self locking safety bar to prevent injury.
- Built to ALRTA standards
- Drop over truck bridge.
- Heavy Duty Gantry.
- Truckie access door.

5 Tonne, 3 phase (415V) electric **KITO**

hoist.
(Please read separate hoist flyer for further information.)

EFFICIENCY, SAFETY AND PRODUCTIVITY ADVANTAGES

RENOWNED STRENGTH, RELIABILITY AND SAFETY

The Permanent Over & Under Loading Ramp is the ultimate heavy duty solution for large scale cattle producers. ProWay's Over & Under Loading Ramps are renowned for their safety, durability and reliability in even the harshest conditions.

The Over & Under Loading Ramp is highly regarded by producers, commercial operators and transporters alike. Featuring a fully galvanised construction, sheeted sides and non-slip walk ways with handrails, the Over & Under Loading Ramp offers highly efficient stock flow and industry leading safety for staff and animals.

- Designed in conjunction with Transporters OH+S Guidelines, featuring non slip walkways and handrails
- Heavy duty, fully galvanised construction with sheeted sides
- Level extension and self aligning swivel buffer board
- Rises over 9M with a 2.6M level extension and 800mm internal width
- Sliding gates at truck end and man way access gates
- Designed to suit either ground level or retaining wall construction dependent on requirements
- Concrete flooring is poured on site and offers a non-slip solution and durability for high traffic loading facilities
- Designed to handle harsh Queensland climate and larger tropical breeds
- Proudly Australian owned, designed & manufactured

CATTLE LOADING RAMPS

Current at: 21 May, 2025

Cattle Loading Ramp - Mobile

Eco Mobile Cattle Loading Ramp with Adjustable Floor with walkway and hand winch

\$8,775.00 (ex GST)

- Strip sheeted pipe sides

\$9,655.00 (inc GST)

- Walkway - 2 x 300mm interlock planks with handrail

- Hand winch to adjust floor height. 12 months manufacturer warranty on winch.

Excludes damage caused by misuse, accidents or interference by operators.

- Lightboard

- Proudly designed and manufactured in Australia

Cattle Loading Ramp - Permanent

19 Degree HD Cattle Loading Ramp

\$6,690.00 (ex GST)

- Rises up over 3.3m

\$7,360.00 (inc GST)

- Sheeted cattlerail sides

- Walkway and handrail

- Swivel buffer board

- Designed for a stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.

- Sliding gate at truck end

- Proudly designed and manufactured in Australia

19 Degree Adjustable Cattle Loading Ramp

\$7,185.00 (ex GST)

- Rises up over 3.3m

\$7,905.00 (inc GST)

- Sheeted RHS sides for good stock flow

- Hot Dipped Galvanised 3mm pressed chequer plate floor

- 800mm internal width

- Nylon buffers

- Drop over flap eliminates gap between truck and ramp

- Hand winch to adjust floor height. Adjusts from trailer to truck height. 12 months manufacturer warranty on winch.

- Walkway - 3 x 225mm interlock planks with handrail

- Constructed from galvanised materials ensures product longevity

- Proudly designed and manufactured in Australia

19 Degree HD Cattle Loading Ramp with Level Extension

\$11,015.00 (ex GST)

Rises up over 3.3m (plus 1.6m level extension)

\$12,115.00 (inc GST)

- Sheeted cattle rail sides

- Walkway and handrail

- Swivel buffer board

- Designed for a stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.

- Sliding gate at truck end

- Proudly designed and manufactured in Australia

CATTLE LOADING RAMPS

Current at: 21 May, 2025

19 Degree HD Cattle Loading Ramp with Level Extension and Dual Walkways

\$12,160.00 (ex GST)

Rises up over 3.3m, plus 1.6m level extension. The level extension makes loading and unloading cattle safer and better suits animals natural tendencies.

\$13,375.00 (inc GST)

- Sheeted cattle rail sides, promotes safe stockflow
- Walkway and handrail both sides of ramp
- Access door both sides of ramp
- Swivel buffer board minimises gaps
- Designed for a stepped concrete floor. Supplied with trimdeck sheeting (better for stockflow and longevity) on which the concrete is poured, forming a suspended concrete slab. A stepped floor is best for loading as it is more natural for animals and they stay calmer.
- Sliding gate at truck end
- Proudly designed and manufactured in Australia
- Walkways and ramp compliant with AS 5430, AS1657 and ALRTA guidelines.

12.5 Degree HD Cattle Loading Ramp with Level Extension incl. Sliding Gate

\$13,635.00 (ex GST)

\$15,000.00 (inc GST)

- Rises up over 5m (plus 1.6m level extension)
- Sheeted cattle rail sides
- Walkway and handrail
- Truckie access door shuts across ramp
- Swivel buffer board
- Designed for a stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Sliding gate at truck end
- Proudly designed and manufactured in Australia

12.5 Degree HD Cattle Loading Ramp with Level Extension, Sliding Gate and Dual

\$17,525.00 (ex GST)

Walkways

\$19,275.00 (inc GST)

- Rises up over 5m (plus 1.6m level extension)
- Sheeted cattle rail sides
- Walkway and handrail both sides of ramp
- Truckie access door shuts across ramp
- Swivel buffer board
- Designed for a stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Sliding gate at truck end
- Proudly designed and manufactured in Australia

12.5 Degree Permanent Heavy Duty Lead-up Cattle Loading Ramp

\$16,945.00 (ex GST)

\$18,635.00 (inc GST)

- Rises up over 5m
- Lead up for 9m Adjustable Ramp
- Designed for a concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Sheeted SHS sides
- This is needed as a lead up to an 9m adjustable ramp if there is no retaining wall
- Proudly designed and manufactured in Australia

CATTLE LOADING RAMPS

Current at: 21 May, 2025

12.5 Degree Queensland Cattle Loading Ramp

\$21,905.00 (ex GST)

- Rises over 5m (plus 2.4m level extension)
- Permanent heavy duty level extension
- Walkway and handrails both sides with steps on drivers side
- Swivel buffer board
- Designed for stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Bat wing doors (designed for side loading)
- Sliding gate on level extension
- Proudly designed and manufactured in Australia

\$24,095.00 (inc GST)

12.5 Degree Queensland Loading Ramp with Dump

\$26,055.00 (ex GST)

- Rises up over 5m (plus 2.4m level extension)
- Walkway and handrail on one side
- Swivel buffer board
- Permanent heavy duty level extension
- Sliding gate on level extension for loading
- Steps on drivers side
- Bat wing doors (designed for side loading)
- Includes unloading dump designed for side unloading
- Designed for stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Proudly designed and manufactured in Australia

\$28,660.00 (inc GST)

9m Adjustable Cattle Loading Ramp (retaining wall design)

\$64,425.00 (ex GST)

- Heavy duty construction with UB H frame.
 - Fully sheeted sides with walkway and handrail
 - Truckie access door and sliding gates at truck end
 - Self locking safety bar
 - Kito ER 2030S Hoist - 3 tonne / 3 Phase. 12 months manufacturer warranty on hoist.
- Excludes damage caused by misuse, accidents or interference by operators. Other hoist options also available by request.
- Proudly designed and manufactured in Australia

\$70,865.00 (inc GST)

9m Adjustable Cattle Loading Ramp (from ground level)

\$81,355.00 (ex GST)

- Heavy duty construction with UB H frame
 - Fully sheeted sides with walkway and handrail
 - Truckie access door and sliding gates at truck end
 - Self locking safety bar
 - Kito ER 2030S Hoist - 3 tonne / 3 Phase. 12 months manufacturer warranty on hoist.
- Excludes damage caused by misuse, accidents or interference by operators. Other hoist options also available by request.

\$89,490.00 (inc GST)

CATTLE LOADING RAMPS

Current at: 21 May, 2025

9m Adjustable Cattle Loading Ramp with Side Load Option (retaining wall design)

\$67,150.00 (ex GST)

- Designed for either rear or side loading
- Fully sheeted sides with walkway and handrail
- Truckie access door and sliding gates at truck end
- Self locking safety bar
- UB H frame
- Kito ER 2030S Hoist - 3 tonne / 3 Phase. 12 months manufacturer warranty on hoist.
- Excludes damage caused by misuse, accidents or interference by operators. Other hoist options also available by request
- Proudly designed and manufactured in Australia

\$73,865.00 (inc GST)

9m Adjustable Cattle Loading Ramp with Side Load Option (from ground level)

\$84,080.00 (ex GST)

- Rear or side loading
- Fully sheeted sides with walkway and handrail
- Truckie access door and sliding gates at truck end
- Self locking safety bar
- UB H frame
- Kito ER 2030S Hoist - 3 tonne / 3 Phase. 12 months manufacturer warranty on hoist.
- Excludes damage caused by misuse, accidents or interference by operators. Other hoist options also available by request
- Proudly designed and manufactured in Australia

\$92,485.00 (inc GST)

Under & Over Cattle Loading Ramp (Retaining Wall Design)

\$88,225.00 (ex GST)

- Rises over 5.14m (plus 2.8m level extension)
- 800mm internal width
- Designed to come off 1m retaining wall
- Walkway and handrail for each deck
- Bat wing doors designed to accommodate side loading
- Has sliding gate both decks at truck end
- Designed for stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Proudly designed and manufactured in Australia

\$97,045.00 (inc GST)

Under & Over Cattle Loading Ramp

\$95,200.00 (ex GST)

- Rises up over 9m (plus 2.6m level extension)
- 800mm internal width
- Walkway & handrail for each deck
- Has bat wing doors designed to accommodate side loading
- Has sliding gate both decks at truck end
- Designed for stepped concrete floor (concrete not included). Supplied with trimdeck sheeting on which the concrete is poured, forming a suspended concrete slab.
- Proudly designed and manufactured in Australia

\$104,720.00 (inc GST)
