HOW PNEUMATICS CAN IMPROVE YOUR OPERATION

Custom designed solutions for your operation

THE CHOICE OF LIVESTOCK PROFESSIONALS

ProWay are able to provide pneumatic solutions that are catered to primary producers as well as commercial operations.

Some of our pneumatic design features include the Remote or Auto Drafter, Rotary Block Gates, the Rotary Force and Race Draft.

THE PROWAY ADVANTAGE:

ProWay has a range of pneumatic solutions that can improve your labour efficiency by minimising staff requirements to process cattle effectively, saving you money.

Stock flow is maximised as there is less interaction with people who can potentially cause baulking when in view of individual animals. The potential of auto drafting is also achievable through these systems which again saves time and money.

Other advantages pneumatics can offer your operation is reducing the WHS hazards associated with stockyards, allowing you and your staff to work safer and further from cattle while increasing productivity.

All systems are custom built for individual operations and can be controlled via remote, dedicated buttons or a switch board.

Professional installation available.

PNEUMATIC ROTARY FORCE

Custom designed solutions for your operation

THE PROWAY ADVANTAGE:

- The Pneumatic Rotary Force is designed to maximise efficiency while removing the need to get into the force area with cattle, eliminating the risk of injury.
- The gate follows the cattle around on rolled panels, reducing the area and encouraging the cattle to enter the race. The gate is then locked into place with a padded brake.
- Gates pivot on a central axis from open to closed in one motion.
- Industrial grade pneumatics for longevity.
- Operated with a control box and compressor that can be set up for other pneumatic processes.

When designing and building your infrastructure our focus is on:

- MAXIMISING STOCK FLOW
- OPERATOR EFFICIENCY AND SAFETY
- ENSURING THE FACILITIES SUIT YOUR SITE AND OPERATION
- PRODUCT LONGEVITY

Designed and Manufactured in Wagga Wagga NSW Australia

PNEUMATIC ROTARY BLOCK GATES

Custom designed solutions for your operation

THE PROWAY ADVANTAGE:

- ProWay's Pneumatic Rotary Block Gates are remote controlled and operate within the race.
- Gates pivot on a central axis from open to closed in one motion.
- Industrial grade pneumatics for longevity.
- They are operated with control box and compressor that can be set up for other pneumatic processes
- Safely stop cattle in the working race without any risk to handlers.
- Able to operate gates from anywhere in the yards so avoids spooking cattle as with conventional sliding gates.

PNEUMATIC RACE DRAFT

Custom designed solutions for your operation

THE PROWAY ADVANTAGE:

- Installed within race frame to allow drafting before crush.
- Sheeted panels to encourage stock flow.
- Heavy duty galvanised construction frame with industrial pneumatics for longevity.
- Manufactured to suit radial arc of the race, for straight or curved design.
- Handheld remote for flexibility allowing operator to draft from anywhere in the yards.

CATTLE DRAFTERS

Current at: 21 May, 2025

Cattle Autodrafters, Manual and Remote Drafters

Cattle 3 way manual drafter — $7,825.00 (ex GST) / $8,605.00 (inc GST)
- 3 way draft in front of crush
- Made from 97 cattlerail, is strong and non-bruise
- Hot dipped channel base for longevity
- Rubber stoppers allow quiet operation
- 80NB Posts are strong and durable
- Sliding gate can be used as a baulk gate
- Access gates have slam catches allowing quick and easy access to animals

Cattle 3 way pneumatic drafter with remote — $12,460.00 (ex GST) / $13,705.00 (inc GST)
- 3 way pneumatic draft in front of crush
- Hand held remote control operation
- Made from 97 cattlerail, is strong and non-bruise
- Hot dipped channel base for longevity
- Rubber stoppers allow quiet operation
- 80NB Posts are strong and durable
- Sliding gate can be used as a baulk gate
- Access gates have slam catches allowing quick and easy access to animals
- Assumes incorporation into larger pneumatic layout and does not include pneumatic control box. Does not include air compressor unit.

Cattle 5 way manual drafter — $11,165.00 (ex GST) / $12,285.00 (inc GST)
- 5 way draft in front of crush
- Made from 97 cattlerail, is strong and non-bruise
- Hot dipped channel base for longevity
- Rubber stoppers allow quiet operation
- 80NB Posts are strong and durable
- Sliding gate can be used as a baulk gate
- Access gates have slam catches allowing quick and easy access to animals

Cattle 5 way pneumatic drafter with remote — $18,165.00 (ex GST) / $19,985.00 (inc GST)
- 5 way pneumatic draft in front of crush
- Hand held remote control operation
- Made from 97 cattlerail, is strong and non-bruise
- Hot dipped channel base for longevity
- Rubber stoppers allow quiet operation
- 80NB Posts are strong and durable
- Sliding gate can be used as a baulk gate
- Access gates have slam catches allowing quick and easy access to animals
- Assumes incorporation into larger pneumatic layout and does not include pneumatic control box. Does not include air compressor unit.

CATTLE DRAFTERS

Current at: 21 May, 2025

Cattle "Plug & Play" Pneumatic 3 Way Drafter with Access Gates & 1 x Rotary Block Gate — $23,265.00 (ex GST) / $25,595.00 (inc GST)

- 3 way pneumatic drafter, designed to be installed in front of crush with access gates allowing treatment of cattle in
- 1 x Rotary Block Gate
- Complete remote control of all gates.
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

Cattle "Plug & Play" Pneumatic 5 Way Drafter with Access Gates & 2 x Rotary Block Gates — $37,160.00 (ex GST) / $40,880.00 (inc GST)

- 5 way pneumatic drafter, designed to be installed in front of crush with access gates allowing treatment of cattle in headbail.
- 2 x Rotary Block Gates
- Complete remote control of all gates.
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

Cattle "Plug & Play" Pneumatic 3 Way Drafter with Access Gates — $16,215.00 (ex GST) / $17,835.00 (inc GST)

- Remote drafting with ProWay's flagship draft module allows safe and efficient drafting in front of a crush or headbail.
- Access gates for head and neck husbandry operations.
- 1 x Manual Sliding Gate
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

Cattle "Plug & Play" Pneumatic 4 Way Drafter with Access Gates — $19,900.00 (ex GST) / $21,890.00 (inc GST)

- Remote drafting with ProWay's flagship draft module allows safe and efficient drafting in front of a crush or headbail.
- Access gates for head and neck husbandry operations
- 1 x Manual Sliding Gate
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

CATTLE DRAFTERS

Current at: 21 May, 2025

Cattle "Plug & Play" Pneumatic 5 Way Drafter with Access Gates — $23,110.00 (ex GST) / $25,420.00 (inc GST)

- Remote drafting with ProWay's flagship draft module allows safe and efficient drafting in front of a crush or headbail.
- Access gates for head and neck husbandry operations.
- 2 x Sliding Gates
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

Cattle "Plug & Play" Pneumatic Standalone 3 Way Draft Unit — $11,160.00 (ex GST) / $12,275.00 (inc GST)

- Remote drafting without the headbail access gates, this unit is designed for facilities with existing gates in front of a crush, or for 3 way drafting in a working race.
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.

Cattle "Plug & Play" Pneumatic In-Race Draft Module — $8,950.00 (ex GST) / $9,845.00 (inc GST)

- The In-Race Draft can be connected to a draft module with a plug and play control box. This module allows drafting from the race into an adjacent holding pen.
- Made from 97 cattlerail, is strong and non-bruise
- The Plug & Play concept is fully self-contained and assembled. No specialist knowledge of pneumatics is required. Full documentation, maintenance and operating instructions are provided with each system.
