

**THE CHOICE
OF LIVESTOCK
PROFESSIONALS**

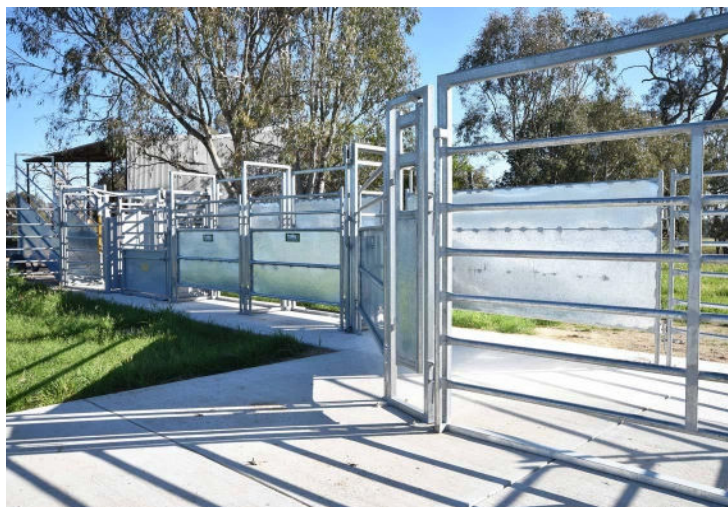

THE PROWAY ADVANTAGE

ProWay's Relocatable Cattle Yards offer the benefits of safe, efficient stock flow with the option to relocate if required. ProWay Relocatable Yards feature 1.75m panels that are fully galvanised steel.

All Relocatable Yard Gates swing inside a RHS frame to ensure strength is maintained in the fence line. Relocatable Yards are available in 32NB pipe and cattle rail.

ProWay Relocatable Cattle Yards can feature equipment from the ProWay Permanent range, such as:

- Working Races
- Rotary Forces
- Fully Sheeted Calf Races
- Manway Access Gates

RELOCATABLE CATTLEYARDS

To work 20 to 200 head

The following designs are a starting point for your operation to give an idea of design options and yard features available.

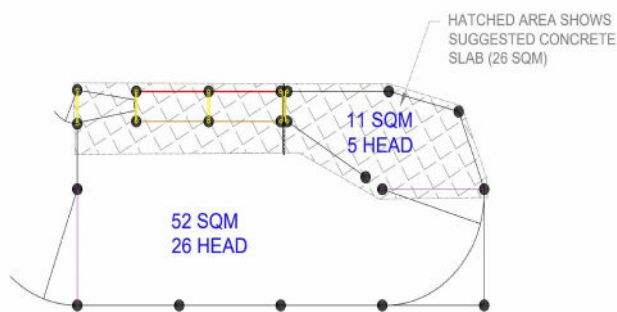

Designs can be modified to suit your requirements and features or equipment can be included or subtracted in the final design. We can incorporate existing fences and infrastructure as part of our custom design service as well as offer sections of these designs such as the working area.
