

THE CHOICE OF LIVESTOCK PROFESSIONALS

THE MODULAR ADVANTAGE

The ProWay shearing module has been designed as a cost effective solution, for small scale wool producers that wish to utilise an existing roof structure.

Once installed, sheep can access the raised grating with the purpose built modular ramp. The size of the hardwood grating area allows for 25-35 sheep per module.

The modular design allows for flexibility in a number of circumstances and can be installed on a lease block or under an existing hay or machinery shed without the expense of new, permanent infrastructure.

- A raised board to minimise bending from shed hands
- Sloped catching pen floors for an easier drag
- A back support arm for shearers to hang harness from
- Split catching pen doors to help shearers move effectively
- Large shearers shelf for storing equipment
- Wide recessed down chutes for ease of releasing sheep
- Count out pens underneath grating area

SHEARING SHED MODULES

Current at: 21 May, 2025

Shearing Modules

Shearing Module - with Enduromesh grating (1st stand)

\$20,655.00 (ex GST)

- 1st stand modular shearing board (conventional drag style).
- Includes shearing board, catching pen, loading laneway, chute, count out pen, steps to board, machine post, harness bar, handrails.
- 1st unit - shearing board 1.8m deep x 3.0m wide, catching pen & loading laneway 3.6m deep x 2.5m wide.
- Sections are delivered in a pre-fabricated form with bolting together on site required.
- Excludes sheep ramp.
- Proudly designed and manufactured in Australia.

\$22,720.00 (inc GST)

Shearing Module - Additional Units

\$20,245.00 (ex GST)

- Modular shearing additional stands.
- Includes shearing board, catching pen, loading laneway, chute, count out pen, steps to board, machine post, harness bar, handrails.
- Additional units - shearing board 1.8m deep x 2.5m wide, catching pen & loading laneway 3.6m deep x 2.5m wide.
- Sections are delivered in a pre-fabricated form with bolting together on site required.
- Excludes sheep ramp.
- Proudly designed and manufactured in Australia.

\$22,270.00 (inc GST)

Shearing Module - with timber grating

\$20,655.00 (ex GST)

- Modular shearing board standard unit.
- Includes shearing board, catching pen, loading laneway, chute, count out pen, steps to board, machine post, harness bar, handrails.
- 1st unit - shearing board 1.8m x 3.0m, catching pen & loading laneway 3.6m x 2.5m.
- Additional units - shearing board 1.8m x 2.5m, catching pen & loading laneway 3.6m x 2.5m.
- Sections are delivered in a pre-fabricated form with bolting together on site required.
- Excludes sheep ramp.
- Proudly designed and manufactured in Australia.

\$22,720.00 (inc GST)

Sheep Ramp Up To Grating

\$4,665.00 (ex GST)

- Includes sheeted sides and pressed steel floor.
- The sections are delivered in a pre-fabrication form with bolting together on site required.
- Proudly designed and manufactured in Australia

\$5,135.00 (inc GST)
